General Comments

I signed in upon entry to the building. The center is following all COVID protocols properly. The children in this licence were outside when I arrived. The program is mainly based on outdoor programming. There are many safety protocols in place for the outdoor environment, including a daily checklist examining the outdoor area, the weather, the safety equipment, as well as precautions to take depending on conditions. The staff appear to be very thorough in ensuring the safety of the children.

The outdoor environment is well organized and is set up into different spaces/centers such as art centers, music, blocks, fire pit, among others. Pathways are kept clear to each space. There is a small building close by in the outdoor area that groups can use for warming up or taking a break from being outside for a while. Every time I visit, I note new things within the environment for the children. While walking in the outdoor area, I saw a group of children sitting down in a row very quietly with their educator. It was explained to me that the children were listening and looking for birds, such as chickadees. The children were all very attentive and patient while doing this activity and they appeared to enjoy it.

The indoor environment is clean and bright and has a wide variety of materials for the children to play with. The space is divided into centers and is organized well. The program appeared to be running well on the day of my visit.
