General Comments

The inside environment is set up with a variety of materials and learning centres to compliment the children's learning. The children were headed into their outdoor classroom at time of arrival. There are many learning centres set up in the outdoor environment as well.

Facility has many extra safety practices and protocols in place where they spend the majority of their time outside in the woods. Educators carry walkie talkies to communicate with each other and the first aid bags have a variety of extra materials in it.

The educators are doing learning stories, posting children's artwork and taking pictures to name a few of the documentation methods.

All records for licensing are kept in a organized fashion and could be easily verified by licensing staff.

Licensing staff can recommend facility for licensing.
