General Comments

The children were playing in the rain in the woods. Licensing staff did not go into the forest during this visit but did a change in service inspection to their inside environment prior to doing the annual inspection. This license is now approved for 30 school age children and 24 preschool children.

The environment is set up with many learning centres and there is a variety of materials available to the children. The documentation that the educators are doing exemplifies the learning goals in the curriculum Framework. Children are being given a variety of experiences to engage with and explore in.

The filing system is very well organized and complete. Licensing staff was able to verify all information required for licensing.

Licensing staff can now recommend facility for licensing.
