<p><b>General Comments</b></p> <p>When inspector arrived, the younger after school children were getting ready to enter the gymnasium for tae kwon do training. Inspector observed educators using positive child guidance and positive reinforcement techniques. While instructing tae kwon do, educators were very engaged with the children, and the children enjoyed the lessons being taught.</p> <p>While on site, inspector noticed a variety of options for hand's on learning opportunities. There were examples of students' art projects posted on the wall.</p> <p>The centre was very well organized and clean. The children had access to lots of learning materials and toys.</p> <p>Later in the visit, inspector observed the older group of children entering the facility. The educators were very effective in ensuring a smooth transition between groups in the gymnasium. Children who were not interested in the tae kwon do training, were given the option to pursue other activities in the centre.</p> <p>Everything is in compliance today; I recommend for renewal.</p>
