<p>Comments: During the monitoring inspection, the Quality Assurance Monitor noticed two children in the upstairs classroom with no educator present. The children confirmed looking for tape, and left downstairs to join the rest of the group again. The Quality Assurance Monitor asked the staff member responsible at the time if children go upstairs unattended often. The staff member responsible at the time confirmed that children go upstairs when they want a specific thing that is upstairs, and voiced to the Quality Assurance Monitor that parent has signed an indirect supervision consent. The Quality Assurance Monitor explained to the staff member responsible at the time that while children were upstairs, there was no supervision at all , Quality Assurance Monitor explained that if a child wants something from another room , if there are no extra educators to take the child upstairs , the educator would need to gather all the children and take all the children upstairs. Deficiency is now compliant</p>
