Upon arriving at the facility, the children were observed getting ready to go play outside. Once ready, the children were observed lining up at the door. The educators were observed brining their first aid bags and daily attendance records outside with them.

The children were observed engaging in various outdoor activities such as climbing the play structure, playing with cars and trucks, in the dramatic playhouse and in the mud kitchen. The playground gate now completely closes and latches shut. The deficiency is now compliant.
