General Comments
A Monitoring Inspection was completed this afternoon. The afterschool program was observed. Children were observed getting off the bus and entering the facility. Children were observed washing their hands at arrival, and lining up at the door, for outside play. While outside, children were observed playing soccer, collecting bugs, playing badminton, and playing on the climber. Educators were engaged with the children, taking part in play, asking the children about their day, and using positive language. The inside environment was also observed. Several different learning / play centers were observed. Several forms of documentation were also observed, some of which included webs, children's artwork, and photos of children taking part in activities. A conversation was had with educators regarding the outdoor play area and property lines. Operator to review property lines with educators.
