General Comments

A Monitoring Inspection was completed this morning. The preschool rooms were observed. The infants were observed playing outside at QAM's arrival. Infants were later observed during inside play. Infants were observed listening and dancing to music, looking at books, and looking and pointing to their pet pictures, that were displayed on the wall. Educators were observed on the floor with the infants, engaged, taking part in communication and play. The 2/3 children were observed dancing and getting ready for outside play. While the music played, children and educators alike, were observed shaking their sillies out. Children were observed smiling and laughing. Children were observed getting their outdoor rain suits on, and lining up at their door, in preparation for outside play. The 3–5-year-olds were observed during free play - playing with trucks, action figures, and playing on their classroom nugget couch. Educators were engaged, sitting with the children, taking part in play. Positive child guidance techniques were observed in all classrooms. Educators were engaged with the children. Several forms of documentation were observed in all classrooms.
