General Comments

A renewal inspection was conducted on the school-age program.

Children were observed during inside play, snack and outside play. There is a variety of materials for the children to interact and engage with and the educators have created defined interest centres within the gym area used by the school-age program.

Educators were observed engaged with the children in play and conversation and speaking kindly and respectfully to them. The children appeared happy and content with their educators and in their learning environment.

Facility is recommended for license renewal pending the recommendation from Public Health.
