General Comments
<p>A monitoring inspection was completed today. Children were observed engaged in play in the outdoor environment.</p> <p>Mud was an interest today with children observed making mud pies and playing with cars and trucks. Children also played on the large stationary equipment. Educator onsite discussed with QA Monitor during inspection equipment in the outdoor area that is not used by children because of disrepair.</p> <p>Indoors, materials are set up in defined interest centres with a variety of accessible materials for the children. Educator shared that recognizing children were not demonstrating an interest in the book, games, and puzzle area prompted her to create a white board with ideas for children to engage with the materials in this area. I am looking forward to hearing how this is received by the children.</p> <p>Hand washing was observed when children returned from the outdoor play environment.</p>
