General Comments
<p>Monitoring inspection performed. This facility is newly opened. It is very bright, spacious and inviting. Covid guidelines are being following, daily log sheets completed and screening taking place. First group of children arrive around 12:05 and the second bus arrives around 12:45. Children have some free play opportunities upon arrival before eating lunch. After noon activities will be going outdoors and enjoying the sun and fresh air. I observed the school age group getting ready for outside play. Planned activities are also recommended for outside play. The Administrator stated the children go on hikes, and currently they have two hills to slide on. This facility just recently opened and the children play outside the fenced in outdoor play space that is used by the other licensed facility owned by the operator. Fire drills will commence the month of March.</p>
