Comments: The last one recorded and performed was in March. Please complete one in July and monthly there after and record. TY			

General Comments
<p>Monitoring visit.</p> <p>Administrative records are being completed. As stated above a fire inspection must be performed and recorded on a monthly basis. The Administrator stated this centre carries out fire drills the same time as the other centre as the centres are connected. Please ensure the educators record this event on the Fire Inspection form located in the Afterschool program room.</p> <p>During my visit today school age children enjoying outdoor play time near the wooded area on the property. Near the wooded area children get shade from the treeline, however the dedicated space that is being created needs a shaded area. The building cannot be used for shade. The Administrator is aware and currently children do not have access to this area at this time. The Operator will need to submit an Application for Change for the addition of a climbing structure, including the outdoor plan. This will require an inspection prior to use to ensure there is appropriate depth of protective surfacing for the structure. Once this is processed, your inspector will be assigned to inspect this space prior to using. This application was received today during my visit. TY</p> <p>Children enjoying quiet time playing with lego - very popular. I recommended spreading all the lego pieces out so children could easily access and work as a team when ready for clean up. The bin makes it difficult to search for the pieces they need to build their structures.</p> <p>I did ask the educator to label the javix and water spray bottle as it had faded.</p>
