General Comments
When the QAM arrived, all groups were outdoors in their designated play areas. 2's Room Children were observed engaging with cars, trucks, and a gas station toy. Educators reported current interests including dinosaurs, stuffed animals, dramatic play (house play), balls, and cars. The indoor environment reflects these interests through dinosaur-themed invitations and documentation displayed on the walls. 3's and 4's Room Children were observed swinging, using the slide, chasing one another, and sitting under the picnic table pretending to drive a car. Engagement appeared age-appropriate and social interactions were positive. Infant Room Infants were outdoors with educators. As many infants are not yet walking, they were primarily sitting or being held. Several infants appeared tired and crying, which educators attributed to the timing being close to lunch and nap time. The QAM discussed with Administration the need to clean the outdoor play area, as there were snack wrappers and small broken plastic pieces scattered on the ground.

General Comments

Fire drill records were reviewed and found to be not updated on site, requiring follow-up.

The parent board and child–staff ratios were reviewed and confirmed to be accurate and up to date.
