Order for Compliance	Regulation	Date to be corrected	Date corrected
28(1) An operator of a licensed facility shall not change the allocation of space used to provide services or add to or alter any building or facility or any part of them unless the Minister has approved the changes in writing.	28(1)	Sep 30, 2022	
Comments: Part of the school age room which is measured for 11 spaces is being used for storage of Infant toys and equipment. It is taking away measured space from the school age classroom. These toys, equipment and materials must be stored elsewhere until this room is approved by all collateral authorities to offer toddler care.			
28(3) The premises of a licensed facility shall comply with (a) lighting, ventilation and other general health standards under the Public Health Act.	28(3)(a)	Sep 30, 2022	
Comments: Licensing staff observed that a new diaper change mat in the big washroom needs replaced as it is torn and difficult to properly clean and sanitize.			

<p>General Comments</p> <p>Monitoring visit. Upon arrival 2 and 3 year olds were napping and supervised. The 4's were having a quiet time and involved in a variety of activities during my visit and playing cooperatively. There was a children's movie playing in the background, but children weren't sitting and watching it but rather involved in their play and the movie was background sound. Children were playing with the tool set, preparing food with the plastic food items and one child was taking his turn using the new tablet that was purchased for the classroom. The Operator left to go and pick up first group of school age children. Administrative records were reviewed and attendance, fire drills and outdoor checklist is being completed.</p>
