General Comments
Monitoring Inspection: Children and educators observed engaged in outdoor play, exploring their environments, during lunch and nap routines. The infants were observed exploring a variety of age-appropriate materials within their environment. Infant Room #1 was the only infant room open today due to vacations and absences however the QA Monitor conducted inspections of all rooms; each room is set-up with a variety of materials and appears to be organized and well-maintained. The preschool children were observed during outdoor play, exploring a variety of materials throughout the outdoor play area. Purposeful planning is evident through documentation displayed throughout the environments and on planning sheets. Children's current interests are supported and connections to the NB Curriculum are included. Handwashing routines were observed after outdoor play and before mealtimes. Macaroni and cheese with mixed vegetables were served for lunch. Monthly fire drills are documented. Daily attendance records are accurate and reflect all children present. Child-to-staff ratio was observed to be met during Monitoring Inspection. New staff file (7) review was completed; all required documents are in place. Infant Daily Information sheets observed to be completed throughout the day. Facility is currently meeting the 50% trained Early Childhood Educators (8/10) requirement.
