General Comments
The ratio was met during my visit, meeting regulations. There appeared to be sufficient materials in the after school space. Children's work is displayed on the walls and it appears they use various materials to make their art. The children were outside playing this morning when I arrived and then came in for lunch. Some of the children were telling me about their day and they appeared to be comfortable with the educators. I saw proper hand washing being done by the educators and children at appropriate times. Staff and child files are kept up to date and contain all necessary documentation. The program seemed to be running well on the day of my visit.
