General Comments
<p>Arrived to perform renewal inspection. The children had just returned from a hike in the woods as this is March Break week. The afterschool room was clean and well organized with a variety of materials and learning centres available to the children. These included sensory, Lego, air hockey, art, dramatic play, reading, games and manipulatives to name a few.</p> <p>Positive child guidance was observed, and educators spoke to children in a kind tone. The educators remained engaged in conversation with the children and took interest in what they were doing if the children desired. There were no behaviors that needed intervention or redirection at the time of visit.</p> <p>All necessary records and documentation was organized and easily verified by licensing staff. I can recommend facility for licensing.</p>
