<p><b>General Comments</b></p> <p>Licensing staff arrived at the licensed early learning and child care centre for the annual renewal inspection. Upon arrival, the children had not arrived from school yet. The educators met with the children and went up to the classroom for some time. The children split into 2 groups. One group went outside and the other played inside. The group outside were seen playing with balls, running around, and playing in the outdoor kitchen. Inside, they were seen playing board games, beads, and Legos. The educators were seen sitting and playing with the children. The educators gave a 10-minute prompt before going outside. The educators were seen greeting the parents as they arrived.</p> <p>The indoor environment was clean and well-organized. Various resources are accessible to the children. Required documentation was checked. One fire drill was missed for the month of February; please ensure they are completed every month. Positive child guidance was observed.</p>
