General Comments

Renewal Inspection:

Inside the preschool children were observed playing with trucks, coloring, having a pillow fight with their educator, and reading a story. Outside the preschool children were observed riding bikes and scooters. The school-age children were observed playing with lego and Beyblades while children applied sunscreen to go outside.

Both the indoor and outdoor environments had a wide range of materials for the children to explore. Both environments had documentation displayed. The documentation reflects the children's on going learning and interests. Child print was observed on art.

Educators were observed having positive interactions with the children using gentle reminders as needed.

Lunch served was egg salad sandwiches.

The following records were reviewed: Incident logs, fire drills, planning sheets, and daily attendance sheets.

A review of all staff and a random review of child files was completed.

Facility is recommended for licensing.
