General Comments

There is evidence of the NB Curriculum is being implemented throughout the facility as learning stories and children's artwork are posted in all the rooms.
 Children seem comfortable in the environment and are familiar with the routine as observed when the children came inside for a bathroom break/ diaper change. The children sat quietly at the table and colored while they waited for each other to be finished then they went back outside.
 The facility is clean, and the large windows allow plenty of natural light to shine through.
 Please remember to clean up the toys that are on the other side of the fenced play area.
