Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments

A renewal inspection occurred today. Children were observed in their indoor environment, engaged in play and also over snack time. Indoor space was purposefully designed to support each child's ability to access all materials independently and were flexible to support children's emerging interest. Materials were displayed at children's level, open-ended and organized to support maintenance and care. All checks were complete. All files were reviewed and also complete. Facility is recommended for license renewal.
