General Comments
<p>A Monitoring Inspection occurred this afternoon, June 17, 2024.</p> <p>During the inspection, children were observed during indoor free play, and proper handwashing was noted during the transition from the school bus. Educator reported that the children are currently very interested in rainbow loom bracelets, being active outdoors, and engaging in open art activities. The educator was observed using positive language, giving gentle reminders, asking open-ended questions, and actively listening to the children, using paraphrasing to ensure accurate understanding.</p> <p>The room was set up in an inviting manner, with materials that encouraged children to play. The facility had a varied supply of appropriate equipment, materials, books, and toys, and featured several well-defined learning centers for building, reading, dramatic play, science, and more. The curriculum provided opportunities for both individual and group experiences, allowing children to express creativity, explore the arts and sciences, experience accomplishments, problem-solve, and develop trusting, respectful, and supportive relationships.</p>
