<p><b>General Comments</b></p> <p>A Monitoring Inspection was conducted on December 6, 2024.</p> <p>During the inspection, children were observed engaging in indoor free play and snack time. Proper handwashing practices were observed during transitions to indoor play and before snack time. Educator shared that the children are currently interested in building forts in the indoor play area, creating snowflakes using loose parts, and are enthusiastic about participating in outdoor activities in the snow. The educator was observed using positive language and providing gentle reminders to the children.</p> <p>The daily routine and evacuation procedures are clearly posted in prominent locations. A notice informing parents of the presence of a communicable disease is also visible. Parents and children are greeted warmly upon arrival. The room is thoughtfully arranged, with materials set up to invite play and exploration. Well-defined learning and play areas were observed, and children's artwork was displayed throughout the facility.</p> <p>The facility maintains clean traffic areas, and outdoor walkways are free of clutter. Toxic products, such as cleaners, are securely locked and inaccessible to children. Drinking water is readily available throughout the day. The outdoor stationary equipment is surrounded by protective surfacing of the appropriate depth for safety. Daily activities are purposefully planned and documented in the program. Opportunities are provided for both individual and group experiences. Various forms of literacy are integrated into the indoor environment.</p> <p>A discussion was held with the Administrator to review the facility's strengths and areas for improvement. Strengths identified included a focus on creativity and art, a variety of learning centers, and flexibility in the schedule. Areas for improvement included vacuuming and maintaining large carpets and the bean bag chair, as well as ensuring monthly fire drills are completed for the after-school program.</p>
