General Comments
<p>The purpose of this visit was to perform the annual renewal inspection. Earlier in the day the centre had their graduation so many children had already been taken home for the afternoon.</p> <p>The indoor play space was clean, bright and well organized. Materials were sufficient and developmentally appropriate for the children present. Children were observed participated in self-directed independent play. Educators also presented three different activities throughout the visit which all the children chose to participate in such as puzzles and "guess who". The educators facilitated this play and helped with turn taking. Educators provided children with choices and positive behavior guidance and tone was observed at all times.</p> <p>The school performed a fire drill during the inspection. Children and educators were calm and well-practiced in the fire drill procedures and performed them safely. The educators had the attendance and the first aid kit with them during this drill.</p> <p>After returning to the classroom following the fire drill the educator applied sunscreen to each of the children before proceeding outside to the outdoor play space.</p>
