<p>General Comments</p> <p>Regular monitoring inspection was performed on this date. Children were all engaged in self-directed play upon arrival of licensing staff. Several learning centres were in place and were inviting for children to participate in.</p> <p>Children requested to dance to "the floor is lava" song which they did after cleaning up. After dancing the children were observed washing their hands before getting their lunch boxes from home and having their afternoon snack.</p> <p>One educator mixed some oobleck while the children were having their snack as another educator sat with them, helping them with their lunch and engaging in pleasant conversation.</p> <p>Children were excited to use the oobleck once it was mixed and enjoyed the sensory activity while the educator explained how the oobleck would sometimes feel like a liquid and sometimes like a solid.</p> <p>Documentation of learning was seen within the room through learning stories about nature and caterpillars which made links to the curriculum. Several fall themed art activities were visible and different art mediums were used to complete them.</p> <p>New staff file was reviewed and contained all the required documentation.</p> <p>The contact information for the Quality Assurance Monitor needs to have the email updated to jenelle.hanscom@gnb.ca</p> <p>Positive behaviour guidance was observed at all times.</p>
