### General Comments

Visit to facility to complete annual inspection; Ratio was respected at time of visit.  
Discussion was had with operator regarding the installation of a hammock in the outdoor play area. If the children are to use the hammock, operator is responsible to ensure that it is installed as specified in the manufacturers installation guide.  
When I arrived, preschool children had finished their snack and were getting ready to go outside. They played outside and then went inside for lunch.  
Facility meets requirements under the Act and regulations; license will be recommended for another year.
