Order for Compliance	Regulation	Date to be corrected	Date corrected
33(2) Stationary equipment in the outdoor play area shall be surrounded by a protective surfacing and installed according to the manufacturer's instructions.	33(2)	Jul 22, 2022	
Comments: While conducting a monitoring inspection visit, licensing staff noted that the protective surfacing surrounding stationary equipment needs to be tilled up, measured and if the depth is not at the recommended depth according to the manufacturer's recommendation then it will need to be replenished.			

<p><b>General Comments</b></p> <p>Licensing staff arrived at the licensed facility to conduct a monitoring inspection visit on July 4th, 2022.</p> <p>Licensing staff and the Administrator were discussing the school-aged classroom and how to plan purposely planned activities to keep the children engaged while attending the centre during the summer months. Licensing staff recommended referencing the NB Playbook- A Resource for Quality After School Programming.</p> <p>The school-aged children have a lovely and very large outdoor play space which includes a wooded area that the children were exploring in for a majority of the inspection visit.</p> <p>All educators were observed engaged with the children the entire inspection visit.</p> <p>All cleaning supplies and medications were locked up in a cabinet with a lock and key.</p> <p>Licensing staff observed positive child guidance techniques being used by the educators used, such as, redirection and diversion, to redirect undesired behaviours.</p> <p>While conducting a monitoring inspection visit, licensing staff noted that the protective surfacing surrounding stationary equipment needs to be tilled up, measured and if the depth is not at the recommended depth according to the manufacturer's recommendation then it will need to be replenished.</p>
