21 The daily activities of a licensed facility shall be purposely planned in advance and documented and shall respond to the capabilities, needs and interests of each child.	21	May 21, 2026	
Comments: The inspector observed that the daily activities planification is missing in all classrooms for the past following weeks of May and none for the afterschool children. The administrator must ensure that the planning of daily activities is completed and available.

Comments: The inspector observed an infant bottle inside a crib with a sleeping infant. When the inspector asked the educator, it was confirmed that the infant drank the bottle while lying down. The inspector reminded the educator of the regulations and offered other strategies.			

General Comments
<p>The inspector observed the children playing freely outside, having lunch and nap time. The inspector recommended that educators disinfect and sanitize toys during nap time or work on their planification, while children are sleeping.</p> <p>The administrator must ensure that a valid copy of first aid is inserted in all staff files. A new Quality Improvement Plan must be submitted to the inspector once completed.</p> <p>The ratio is respected during the inspection; however, the inspector left the facility before the afterschool children arrived.</p>
