Comments: During the inspection, the Quality Assurance Monitor observed that a section of the parking lot was under construction and the infant outdoor play area had been removed. The operator explained that the infants are currently using the wooden fenced in area while they are expanding the infant play area. No application of change had been submitted to the Quality Assurance Monitor and this change had not been approved. During the inspection, the administrator measured the temporary location to ensure the walls of the fenced area met the height requirement under Regulation 31(6). The administrator started the application for change and stated that they would send the Quality Assurance Monitor the complete request signed by tomorrow.
