requires two educators.									
Comments: Deficiency is now compliant.	requires two edi	ucators.							

## **General Comments**

Upon Licensing staff arrival, the children were getting ready to go outdoors to play. Educators were observed offering assistance to children with snowsuits, boots, hats and mittens. The attendance sheet as well as first aid

## **General Comments**

kit were taken outside. While outside, children were observed playing in the snow, using coloured cones to create an obstacle course, on the Little Tykes slide/climbing structure, with trucks, and with buckets to make snow castles.

Once inside, belongings were hung up and hand washing was observed prior to lunch. During lunch, the children sat together to eat and Educators were actively engaged in conversation with the children.

A discussion was had with the Administrator and Operator concerning future program planning ideas and the use of webbing. It was also noted that incorporating elements of nature to the indoor space would create a more natural environment. Smooth live edge wood pieces or hanging branches with pretend birds could be used.
