General Comments
<p>Upon Licensing staff arrival, the children were in the main area playing with Lego, building with large wooden blocks, doing jumping jacks and colouring. Where there is no school today, the facility is operating for the full day. During drop off, Educators informed parents/guardians that they will be attending the park in the afternoon and a sign will be placed on the door. Later in the morning, Educators were observed playing a guessing game with the children, assisting with Lego building and were actively engaged in conversations. Gentle reminders were heard about using quiet indoor voices and cleaning up activities prior to starting a new one.</p> <p>The space is bright, clean, and inviting. Childrens artwork was on display throughout the facility on the walls, hanging from the ceiling and on shelves. The large art room was organized and material such as paints, brushes, bins of beads, scrap book pieces, tie dye materials and stamps and stencils were in order and labelled.</p> <p>Snack time was observed during inspection. The children collected their lunch bags from their hooks in the main entry and sat together at the tables. After snack, the children put their lunch bags back with their belongings, washed their hands, and returned to play.</p> <p>The parent board contained all required information, monthly fire drills are being conducted and recorded and the evacuation plan was clearly visible. Staff and child files were verified, and all required documentation was present.</p> <p>Licensing staff recommends for renewal.</p>
