**General Comments**

Licensing Staff arrived at The Lily Pad to perform a Monitoring Inspection. Upon arrival, the children were in the process of waking up from nap time before transitioning outside. The Operator encouraged the children to get their outdoor shoes and hats on. Once outside, sunscreen was applied, and water bottles were brought out.

A wagon with a large container of toys was brought to the park nearby. The children were observed running, laughing, making soup with dirt, going down the slide and playing on the swings. The Operator sat on the grass, engaging with the children and encouraging language. "What do you think is in that cloud that's right above us. Do you think we are going to get rained on?". When it was time to meet the school age children at the bus stop, the preschool age children sat close to the bus stop, watching as a driveway was being paved. The children smiled and laughed as they waved at the construction workers. Once the bus arrived, the Operator greeted the children, and they walked back to the facility to apply sunscreen and pack the children's belongings to bring to the park for end of day pick up.

Only positive child guidance was observed during today's Monitoring Inspection. The Operator is patient, kind and attentive to the needs of the children. Some positive changes have been made in the indoor environment since the last Monitoring Inspection. A large couch has been removed which opens the room up. Purposeful activities were set up throughout the room. The posting board was observed and contains all required documents.
