31(3) An operator shall maintain the outdoor play area of a licensed facility to ensure the safety of the children.	31(3)	Feb 22, 2023	Feb 22, 2023
Comments: Outdoor Play Area - A large plastic tunnel was observed in the play area. Due to the ice/frozen ground, this tunnel must be removed from the play area. It can be brought back in the spring, when the ground thaws and protective surfacing is available. QAM brought this to the administrator's attention, and administrator removed the tunnel from the play area. Deficiency is now compliant.			

General Comments
A Monitoring Inspection was completed this afternoon. Several forms of new documentation were observed throughout the facility, some of which included photos with written descriptions, children's artwork, and word webs involving children's interests. While inside, children were observed taking part in several forms of play - Lego, mark making, looking at books, playing with toy vehicles, and dressing up in the Dramatic Play area. Children is the 2/3 classroom made Box Cars earlier in the day, and children were overheard talking about this fun experience. While inside, educators were engaged - talking to the children at their level, giving gentle reminders, using positive reinforcement, and distracting children from potential problems. A conversation was had with administrator regarding educator's engagement levels, while supervising outdoor play. A conversation was had with administrator regarding a large play tunnel in the outdoor play area. Administrator removed this tunnel during today's monitoring. It can be brought back out to the play area come spring, when the ground is thawed, and protective surfacing is available.
