Address Unit 2 283 New Maryland Highway New Maryland NB E3C 2H3			
Name of Early Learning and Childcare Licensing Staff Jennifer Godin		Position Title Quality Assurance Monitor	
Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments

Children had just finished lunch and were playing freely around the room when I arrived for today's monitoring inspection. Children were observed playing with Lego, hanging out in the reading corner, blocks, connecting sticks, and drawing.

When it was time to go outside, educators ensured all children were warmly dress as it was quite cold and windy outside. While outside, children were observed taking full advantage of all three fenced in play spaces, as they were the only group outside.

Observed positive child guidance practices such as offering choices and assisting children in decision-making, redirecting, and using gentle reminders when needed. Educators ensure they were down at the children's level when speaking with them.

The facility's indoor environment offers a very clean and bright welcoming atmosphere for the children to thrive in. The facility has an abundance of learning materials that meet the interests of the children.

All administrative records that were observed today were well organized and in compliance with licensing regulations.

Please ensure that when children are in more than one outside play space, that there are enough educators to supervise each area, and that ratio is maintained. It is recommended that if children are spread out between the three fenced in outside play spaces, that there be an educator in each space to ensure proper supervision of the children. For example, if a license only has two educators, there should only be two outside play spaces open.

The gated door between the furthest outside play space and the middle one is broken. The fence appears to have become detached from the gate door frame. Childcare manager took pictures and submitted a ticket to have it repaired at time of inspection.
