Name of Early Learning and Childcare Licensing Staff Nancy Glendenning		Position Title Inspector	
Order for Compliance	Regulation	Date to be corrected	Date corrected

### General Comments

Nancy Glendenning and Lindsay Lewis arrived at facility to conduct the renewal inspection and children were playing freely in the environment. The facility has increased their resources since last inspection. The environment is set up with different learning centres and resources for the children to use.

The operator is waiting for portable air conditioners to arrive. Today it was extremely hot in the school and some of the children appeared bothered by the heat. Licensing staff advised the educators to take the children outside into shade rather than to the gym as scheduled. The educators quickly put a plan into place and prepared to go outside. They were going to go into a wooded area to look for bugs as the children were interested in finding them.

The programming is evident throughout the facility. The educators have a schedule posted on the wall and build a program around the children's interests. The children's artwork was on display throughout the classroom.

Please ensure that ice packs are being used by parent(s) in the children's lunches for the summer to ensure safety.

Also, a reminder is given to always check the school playground for hazards prior to use and report any issues to the school.

All documentation was easily verified by licensing staff. The files are organized and complete. Licensing staff can now recommend the facility for licensing.
