### General Comments

This was the first monitoring visit since the relocation.  
The area is roomy and bright. There are a variety of age-appropriate materials for the after-school children to learn and explore with.  
During the visit the children were observed playing with the large doll house, dramatic play area with the kitchen and hair salon, lego and magnetic blocks. Some of the children were also drawing pictures in the craft area.  
The educators were actively engaged with children, playing games and going to the various centers to see what the children were doing.  
The children and educators seem to be enjoying the new space.
