### General Comments

Licensing staff arrived at the licensed facility to conduct a yearly license renewal inspection. The children and educators were outside playing when licensing staff arrived.

The operator took licensing staff on a tour of the newly cleared wooded area where the children are now playing when outside. There was a new wooden kitchen with accessories for the children to engage in play with along with a chalk board. The children were gathering sticks to play with and were helping clear some of the branches and trees laying on the ground. Other children were playing with a basketball, shooting the ball into the basketball net. The children played outside until it was time to go inside for lunch. Once the children finished eating their lunch, they engaged in free play activities inside.

The educators were playing with the children and guided children positively throughout the inspection.

Please ensure all files are complete with the required documentation. If families do not currently have a doctor, it should be stated that the families currently do not have a doctor.

Licensing staff recommends this license for renewal.
