### General Comments

Regular monitoring inspection was performed on this date. Children were seated at the kitchen table upon arrival of licensing staff. Older children were independently painting Easter Craft eggs and younger children were engaged with other activities at the table such as books and puzzles. The children proudly displayed their creations while the operator encouraged them and engaged in conversation with the children. Child files were reviewed and contained all required documentation. Home utilizes a playpen and sleeping mats for quiet time. Please ensure nap room is not used for the storage of other items. Children were given the opportunity to utilize several play materials while within the kitchen while the educator cleaned up after their art activity. The operator remained engaged with the children and helped them to problem solve by giving them options and encouraging them to make appropriate choices. Positive behaviour strategies and redirection was observed throughout the inspection.
