General Comments

- Visit completed at the facility in the morning for a monitoring inspection.
- Ratio was maintained during the visit.
- During the visit the facility used positive child guidance.
- The parent board at the entrance of the facility has all the required documents posted.
- The daily activities are purposely planned and documented and responds to the needs and interest of each child.
- Indoor play area materials and equipment are varied and in sufficient quantity for all children present. The materials are easily accessible and maintained clean and in good repair.
- Toxic products, chemical products and cleaning supplies are locked and inaccessible to children.
- Personal belongings are labelled with the child's name. Easily accessible and stored separately for each child.
- Observations:
Diaper changing, handwashing, snack and free play. The children were creating with Lego, playing with the cars and the farm. The children went outside to play.
- Discussion with the director on the sleep area, daily routine, learning stories and ratio.
