<p>General Comments</p> <p>This is the operator's first monitoring inspection since becoming licensed.</p> <p>The children were engaged in a number of activities in the morning. Children were playing with cars, reading books with the operator, and crawling through the play tunnel.</p> <p>The operator used different moments to expand on the children's vocabulary and teach concepts like consent to touch a friend's body in the form of a hug and sharing toys with one another. Children were provided with a balance of attention and assistance but also time and space to gain independence.</p> <p>The materials in the playroom were accessible on shelves and in baskets. A large variety of quality, age-appropriate books were also available. The children's artwork was posted on clipboards and photos are attached to the walls with Velcro dots to allow the children to remove the photo and look at it closely.</p> <p>The lunch routine, including transitions, were smooth. Children could leave the table as they finished and return to their play.</p> <p>Floors, rugs, the bathroom area and materials were clean and well-maintained.</p> <p>The installation for the fence outdoors begins this weekend and licensing staff will return on May 31, 2023 to ensure compliance with this requirement and inspect the outdoor space.</p> <p>Please add to your postings at the back door:</p> <ol style="list-style-type: none"> 1. your name and contact information along with the Quality Assurance Monitor's information. 2. a copy of your menu- this was on the fridge and a note about a substitution was marked on the whiteboard by the door, but a menu must also be visible to parents.
