39(2) A licensed facility shall have a separate locked storage space that is inaccessible to the children for each of the following: (a) toxic products, chemical products and cleaning supplies;	39(2)(a)	Nov 29, 2024	Nov 29, 2024
Comments: Deficiency is now compliant			

General Comments
<p>When I arrived, the children were watching a show on Minecraft, one was building a fort with chairs and blankets.</p> <p>When the afterschool educator came back from her lunch break, she shut off the show and she engaged the children in play. She built a puzzle with one child; one was building with the blocks and the other was building a fort.</p> <p>The educator advised the inspector that the children had been working hard on Christmas decorations, all the decorations on the tree are handmade and the children did streamers which were hung all around the Centre.</p> <p>The space is clean and organized and the children have many different materials and toys.</p> <p>The educator was engaged with the children throughout the inspection, she was engaged in conversation with them and played with them. If children needed her help, she helped them.</p> <p>As discussed, the Centre doesn't have a food license and therefore, cannot toast bread for the children.</p> <p>Everything is in compliance, I recommend for renewal.</p>
