31(3) An operator shall maintain the outdoor play area of a licensed facility to ensure the safety of the children.	31(3)	Nov 30, 2025	
<p>Comments: While inspecting the outdoor play environment, licensing staff noted standing water in the tires that are randomly placed around the playground and in the large tub where the water pump is located. Please ensure the water is emptied out of the tub and tires, after a rain or snowfall to ensure the children's safety.</p> <p>Licensing staff also noted broken wooden objects piled up by the shed located in the outdoor play environment. Please remove the wooden objects from this space to ensure the children's safety.</p> <p>Please ensure the metal climbing dome located in the outdoor play environment is secure to the ground as per the manufacturer's manual to ensure the safety of the children while engaging in play outdoors.</p>			

<p>General Comments</p> <p>Licensing staff arrived at the licensed facility to conduct the license renewal inspection before the children arrived for the day. Once the children arrived off the bus, they went directly outdoors to play outside in the outdoor play environment. Some children opted not to have their afternoon snack before playing while other children sat down at a picnic table to eat their afternoon snack.</p> <p>Some children engaged in play with the hockey nets that were set up for the children while other children played on the stationary equipment.</p> <p>Licensing staff only observed positive child guidance by the educator. The children were encouraged to use their words and were redirected from unsafe activities.</p> <p>Licensing staff noted that the indoor play environment was very clean and had multiple play centres set up for the children.</p>
