Order for Compliance	Regulation	Date to be corrected	Date corrected
28(3) The premises of a licensed facility shall comply with (a) lighting, ventilation and other general health standards under the Public Health Act.	28(3)(a)	Jul 07, 2026	
Comments: There is a gap under the exterior door that need to be repaired. This can create an entry point for pests.			

General Comments
It was a rainy morning some of the children were watching a movie, "Shrek 3". Others were building with lego at the table The facility is clean and organized. There are sufficient materials for the children to learn and explore with. As the weather cleared the children went outside were able to participate in a variety of activities such as soccer, driving Tonka trucks in the dirt, playing on the new swing set and monkey bars. There is a gap under the exterior door that needs be repaired as this can cause a gate way for pests to enter the building. It was also noted that the operator's criminal record is almost expired. A new criminal record check will need to be completed. The children seem comfortable in the environment and familiar with the daily routine.
