General Comments

The Quality Assurance Monitor (QAM) was on site for a monitoring inspection.
During the inspection, the QAM verified:

- child-to-staff ratio
- Child guidance
- Safety
- Premises
- Daily routine

The QAM also had a discussion with the administrator regarding designation requirements. The operator confirmed that the Quality Improvement Plan is up to date and that she has completed 10 hours of professional learning.

Children were observed playing indoors during the inspection.

Due to rainy weather, outdoor play could not be observed. However, the operator stated that, when weather permits, children go outside for at least one hour twice daily.

The QAM noted that the fire extinguisher located in the basement expires at the end of the month. The operator was reminded to get it inspected soon.
