General Comments
The children were in the outdoor play space when I arrived. The outdoor play space offers various types of surfacing such as sand, fake turf, mulch, cement blocks and rubber tiles. All these surfaces permit different types of the play for the children. While outside the educators were observed sitting at the child's level, playing and singing songs with the children. Transitions from the outdoor play space to the inside and lunch time routine were observed during the visit. The children followed the educators to the building in an organized manner. Lunch time was calm and organized. The educators encourage independence in the children by teaching them to open packages in their lunches and putting the garbage in the garbage cans. The rooms are well maintained, clean and organized with diverse materials for the children to learn and explore with. The educators are following the interest of the children through webbing. Learning stories and photos of the children are also posted throughout the facility. Everything seemed to be running smoothly during the visit. Only positive guidance was observed.
