Order for Compliance	Regulation	Date to be corrected	Date corrected
39(2) A licensed facility shall have a separate locked storage space that is inaccessible to the children for each of the following: (a) toxic products, chemical products and cleaning supplies;	39(2)(a)	Oct 18, 2023	Oct 18, 2023
Comments: Rubbing Alcohol observed in a cupboard in the children's play area. This was removed and locked up during renewal inspection. Deficiency is now compliant			

General Comments

A renewal inspection was completed today.

The indoor play environment is purposely planned for both age groups (morning preschool and after school care) with a variety of materials in clearly defined interest centres. Materials and invitations are displayed neatly and are easily accessible for children to access.

Children were observed to engage in solitary and collaborative play with their friends. Educators supported children's interactions through conversation and questions.

Hand washing was observed as children arrived and before snack was provided.

There are no outstanding orders for compliance. The facility is recommended for licence renewal.
