28(3) The premises of a licensed facility shall comply with (a) lighting, ventilation and other general health standards under the Public Health Act.	28(3)(a)	Feb 28, 2025	Jul 22, 2025
Comments: Licensing spoke with the administrator, and there is a plan of action in place with Public Health			

General Comments
<p>A Monitoring Inspection occurred July 2025.</p> <p>The children were observed in both indoor and outdoor environments. Educators were seen using positive language to encourage the children to help with clean-up before transitioning indoors.</p> <p>Kinder Kinds: Outside, the children were observed inside the fenced-in play yard, engaged in water play, digging, and climbing. Indoors, they were seen playing with playdough and cookie cutters, making loom bracelets, building with magnetic tiles, and reading books with their educator. The educators indicated that the children are currently interested in planting, open-ended art, loom bracelet making, and water play.</p> <p>Campers/Junior Campers: The children were observed playing on the playground and transitioning indoors. Once inside, they were observed making loom bracelets. The children shared with licensing staff that they are trying to beat the record for the longest loom bracelet. Educators noted that the children are currently interested in loom bracelets, open-ended art, and nature—specifically fossils. To build on the children's interest in fossils, the educators organized an outing to the fossil shed and invited a geologist to visit the facility. Both experiences were documented with photographs and a learning story.</p> <p>The rooms were well-organized and inviting, with a varied supply of age-appropriate materials, book, and toys. A clearly visible and prominent area is designated for posting the facilities license, current monitoring reports, and any orders for compliance. Additional documents observed included incident logs, daily attendance records, and records of evacuation and monthly fire drills.</p> <p>A conversation took place with the Administrator on the following:</p>

General Comments

- Updating an expired EpiPen and the Extreme Allergy Management and Emergency Plan form.
- Ensuring that the annual inspection report and the most recent monitoring inspection report are visible.
