General Comments
<p>Monitoring inspection completed today ahead of summer closure. Children and staff were observed in the outdoor play area. Children were participating in their end of school party, with activities and treats. Children are provided with a range of opportunities to explore their outdoor play environment and were observed engaged in individual and group play. When disagreements occur, children are encouraged to talk it out. Their educator was close by, but allowed the children the time to discuss and they worked it out themselves.</p> <p>As discussed during inspection, ensure that repairs are made to picnic tables and mud kitchen in the outdoor play area before children return in September.</p>
