General Comments

A renewal inspection occurred today. The educators had lots of various forms of invitations within the learning environment which were inviting for all afterschool ages.
The dramatic play area was equipped with props for domestic play and other play scenarios such as store (subway), reception, library etc. Open ended materials provide multiple choices, solutions and possibilities for exploration and investigation.
Materials were organized and labelled so children know where to find them and put them away independently.
The art area had a variety or mark making utensils and various forms of open-ended materials to create art based on the children's interest and creativity.
The educators created "behavior bucks" for positive reinforcement on behavior for being kind, helping, cleaning up and listening. Each child has earned " behavior Bucks" and they take pride in this activity. The educators are uncovering new information about each child through visual listening.
All staff and children's files were viewed and complete. Discussed with operator during renewal children are not permitted in woods until trees are cleaned up for safety. Children were on a candy cane hunt outside but were not in the woods (as per operator's request).
