### General Comments

A Monitoring Inspection occurred on May 29, 2025.

Children were observed during outdoor free play, engaging in a variety of experiences. Educators shared that children are currently interested in guppy fish, a new sandbox, hammocks in the forest, vintage technology in the woods, and the life cycles of frogs and bees. Other interests include a fairy land setup, LEGO, open-ended art, and light and shadow exploration. Educators used positive language and gentle reminders, asked open-ended questions, listened actively, and extended children's ideas through thoughtful conversation. Outdoors, educators participated in children's play and learning.

A daily incident log is kept, and parents are notified of reportable incidents. Emergency evacuations are completed monthly and posted. Parents have access to the center at any time. The license, inspection and monitoring reports, and compliance orders are posted. Arrival times are welcoming, and the room setup is inviting. Materials reflect children's interests and ideas from documentation. Books and displays are at eye level and include children's names and dates. Areas are clean, organized, and stocked with appropriate materials. Program is intentionally planned and documented. Documentation, portfolios, and curriculum extensions are visible. Strengths were noted, with some repairs needed to the washroom flooring and LEGO table.
